

**National Field Manual
for the Collection of
Water-Quality Data**

Chapter A7.

BIOLOGICAL INDICATORS

	Page
Abstract.....	7
Introduction	7
Purpose and scope	8
Requirements and recommendations.....	9
Field manual review and revision.....	10
Acknowledgments.....	11
7.0 Five-day biochemical oxygen demand	BOD-1
G.C. Delzer and S.W. McKenzie	
7.1 Fecal indicator bacteria.....	FIB-1
D.N. Myers	
7.2 Fecal indicator viruses.....	FIV-1
R.N. Bushon	
7.3 Protozoan pathogens.....	PP-1
R.N. Bushon and D.S. Francy	
Conversion factors, selected terms, symbols, chemical formulas, and abbreviations	CF-1
Selected references and documents	REF-1

Appendix A7-A. Parameter codes used in the National Water Information System (NWIS) of the U.S. Geological Survey..... APP-1

Table 1. Parameter code for 5-day biochemical oxygen demand.....	2
Table 2. Parameter codes for fecal indicator bacteria	2
Table 3. Parameter codes for somatic and F-specific coliphages	3
Table 4. Parameter codes for <i>Cryptosporidium</i> and <i>Giardia</i>	3

Notes:

The citation for this third edition of chapter A7 of the *National Field Manual* is as follows:

Myers, D.N., and Wilde, F.D., eds., November 2003, Biological indicators (3d ed.): U.S. Geological Survey Techniques of Water-Resources Investigations, book 9, chap. A7, accessed date, from <http://pubs.water.usgs.gov/twri9A/>.

Citations for chapter sections are listed at the end of the table of contents for each section.
